About this Seminar –

This is the only recognized safety manager accreditation program being offered in Canada designed specifically for Canadian safety managers. The course is applicable to the North American Transportation Management Institute, nationally recognized university accredited certification program.

Register On-Line
And Receive a
15% Discount

The Course and Pre Registration Requirements –

- 4 days of in-class training (2-day Motor Fleet Safety Basics course and a 2-day Managing Motor Fleet Safety Programs course), followed by a 4-hour certification examination, based on the course content and general knowledge from practice in the profession (a combination of multiple choice and true/false questions).
- The registrant will be expected to complete pre-reading assignments, which will be sent upon receipt of registration in the course.
- Following completion of the course the registrant must complete a certification exhibit within 60 days. The exhibit is a portfolio of the applicant's professional background, company information, programs developed and management activities.
- To qualify to participate in the course the registrant must have five years in the safety field or, four years in the safety field with a 4-year college degree.

What will be Covered –

For full details please refer to the NATMI website @ www.natmi.org and follow the links to Certified Director of Safety under the section describing the Professional Credentials offered by NATMI.
